

BUSINESS PLAN

FOUNDER & TEAM

Ansar Ullah Khan – Founder

Abdul Mateen Khan – Co-Founder

Problem

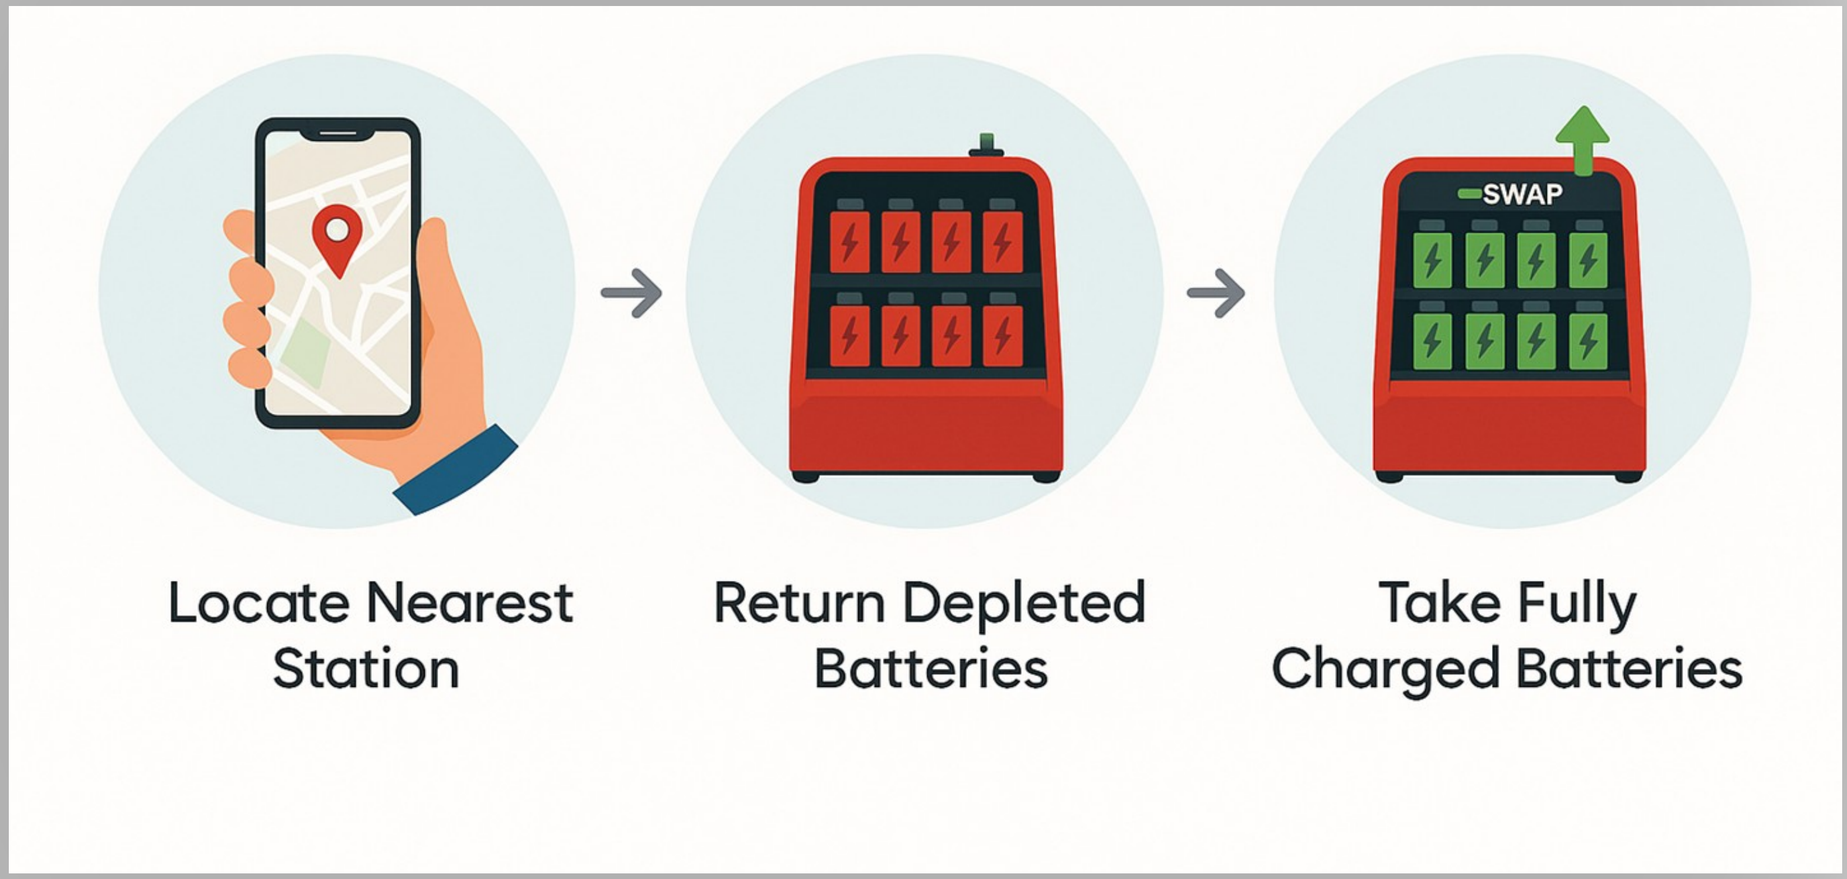

EV bike adoption is on the rise in Peshawar, driven by fuel cost concerns and eco-conscious choices.
However there is a lack of proper charging infrastructure, causing inconvenience, range anxiety, and limiting the long-term sustainability of electric mobility in the city.

Solution

EvSWAP is a battery swapping system for electric bikes that replaces long charging times with instant battery exchange, giving users convenience, speed, and reliability.

How Battery Swapping Works

Market Research

- **Motorcycles in Use:** ~30 million nationwide
- **EV Two-Wheelers (E2Ws) Produced:**
- 2021–22: 7,377 units
- 2024–25: 22,404 units

Estimated EV Bikes in Peshawar: 500-700

- **Motorcycles & Scooters in KP:** 1.45 million+ (as per regional stats)

Target Market & Demand

Segments

1.**Delivery Riders**

2.**Students**

3.**Private Commuters**

Why Focus on Delivery Riders?

•**Active Delivery Riders in Peshawar:** 2000–3000

Daraz x Meezan Bank Partnership

•Riders get EV bikes via Shariah-compliant installments

Market Opportunity

- **Fuel Cost (Petrol):** Rs 8–9/km (Rs ~379/litre @ ~45 km/l avg)
- **Electric E2W Cost:** Rs 2–2.5/km (saves 70%+ daily)
- **Battery Swap Time:** Less than 5 minutes
- **Charging Time (Home):** 6–8 hours

Differentiation / USP

- First battery swap network in Peshawar
- Target underserved riders (students, fleets)
- Fast service: <2 min swaps vs 6–8 hr home charge
- Local repair + battery maintenance included
- Reduced emissions: align with KP climate goals

Branding

Brand Name: EVSwap
Tagline: “Swap. Ride. Repeat.”
Logo Design : Modern, motion, energy, sustainability
Targets: Young professionals, delivery riders, eco-conscious users

Marketing Channels

Online Marketing

- **Social Media:**
  Facebook, Instagram, YouTube, LinkedIn
- **Influencer Marketing**:
  Tech YouTubers, eco-bloggers

Offline Marketing

- **Print Ads:** Flyers at universities, food hubs, petrol stations
- **Transit Ads:** Rickshaws, buses, EV bikes
- **Billboards**: University Road, Saddar Chowk

On-Site Promotions & Offers

- **Branded kiosks in Hayatabad**
- Free first-week swaps
- **Referral rewards:** Free swap per referral
- Staff uniforms for brand visibility

Discounts

- **Intro Offer**: Rs. 500/month unlimited swaps
- **Loyalty Points:** Redeem for discounts
- **Bulk Deals:** For Foodpanda, Cheetay, etc.
- **Student Discount:** 10% off with valid ID

Target Segments

· Delivery Riders, Daily Commuters, Students, Small Retailers

· **Areas:** Hayatabad, Saddar, Karkhano Market, University Town

Customer Experience

· **Easy-to-use app:** Swap locator, history, status

· 24/7 Support: Call, chat, roadside help

· Feedback & Reviews

· Rewards for Google/App reviews

· “Top Swapper” of the month

· Quarterly feedback surveys

· Community events

Customers & Experience

ASK?

We are seeking an investment of PKR 3.5 Million in exchange for a 25% equity stake.

Equity Share

NAME	ROLE	INVESTMENT (PKR)	Ownership Stake (%)
Ansar Ullah Khan	Founder	250,000	30%
Abdul Mateen Khan	Co-Founder	255,750	25%
Angel Investers	-	-	-

Mission Statement

To revolutionize urban mobility by delivering a seamless and convenient battery swapping solution for electric bikes eliminating charging delays and to support a greener, more sustainable future.

Vision Statement

To lead Pakistan's Electric Vehicle revolution by building a robust battery swapping ecosystem that eliminates range anxiety, is environment friendly and defines how cities move.

ROLES & RESPONSIBILITES

Finance – Ansar Ullah

Key Responsibilities:

- Prepare financial plans and budgets for the business.
- Monitor revenue, costs, and profitability of battery swapping operations.
- Manage investor relations and seek funding opportunities.
- Ensure compliance with tax regulations and oversee audits.

Marketing & Operations – Abdul Mateen Khan

Key Responsibilities:

• Develop and implement marketing strategies for the EV swapping business.

• Manage advertising campaigns, digital presence, and customer engagement.

• Conduct market research to identify trends and customer needs.

• Build relationships with EV manufacturers, users, and charging station partners.

Operations:

•Oversee daily operations of the battery swapping stations.

•Manage logistics, inventory of battery packs, and swapping infrastructure.

•Implement business processes and optimise for efficiency.

•Monitor KPIs (key performance indicators) to ensure service quality and uptime.

LEAN CANVAS

PROBLEM

-High fuel/maintenance costs
-6–8 hr charging times
-No swap stations in Peshawar

SOLUTIONS

<2-min battery swapping
-Stations at key hubs

KEY METRICS

-Swaps per day
-Active users Rider retention
-EV adoption boost

UNIQUE VALUE PROPOSITION

-1st battery swap network in Peshawar 50%+ savings vs petrol Fast, eco-friendly, low-cost

HIGH LEVEL CONCEPT

Swap. Ride. Repeat.

UNFAIR ADVANTAGE

-1st-mover in KP Local trust + rider network Quick support

CHANNELS

-Mobile App
-Social Media Ads

CUSTOMER SEGMENTS

-Delivery Riders
-Students
Private Commuters
-Early adopters: Urban BRT commuters

COST STRUCTURE

Battery purchase & charging Station setup & maintenance Marketing Logistics & staff wages

REVENUE STREAMS

Pay-per-swap Monthly packages/subscriptions B2B partnerships with delivery companies
